Letter no 166 4465/48-49 D 21-6-49 from the Dy Commr, Bangalore St, requesting sanction to the installation of 35 additional lights in the Kankhanhalli Town mlf

1) It is stated that the expenditure to be incurred in this behalf comes to Rs 787-80 per year. The mlf have proposed to meet this expenditure from the revenue derived from the one taxation on properties

2) The Dy Commr, states the financial position of the mlf permits the incurring of this extra expenditure

3) The financial condition of the Kankhanhalli Town mlf for the year 1948-49 is as follows —

opening balance	Rs 66,135
Receipts	48,206
Total	<u>Rs 1,14,341</u>
Expenditure	<u>1,03,824</u>
Closing balance	Rs 10,517

4) The Electrical sect will also be consulted whether it would be possible to put up the lights as requested

Reduction of 10% guarantee on 35 additional
Street Lights in Kankanhalli Town

Returned with compliments to the Secretary to Government, (^{General} Development) Department, with the information that 10% of levy on capital invested on Street Lights is being insisted as a general rule from all Municipalities in order to cover the complete equipment cost of these installations at the expiry of 10 years

31) Besides, the maintenance cost of these installations are considerably increased due to Pay revision and higher cost of materials. Therefore I am not in favour of reducing the existing levy of 10% guarantee on capital invested on these installation, as reduction will mean actual loss to the Department.

32) The Municipality will however have the benefit of usual Royalty on these lights after the expiry of the period of ten years

Sir,

Sub Installation of 35 additional lights
in Kankanhalli town

I have the honour to state that the Municipal Council Kankanhalli have at their meeting held on 17-4-49 resolved that 35 additional lights may be installed at various places in the town and to state that the Municipality has formed a new extension in the town which has to be given lighting facilities. The expenditure to be incurred in this behalf comes to Rs 787-3-0 a year which the council propose to meet out of the revenue to be derived from the Municipal taxation on properties. The financial position of the municipality permits this extra recurring expenditure and the installations of these 35 lights is quite necessary. Due provision will be made in the budget estimates of the ensuing years for this purpose.

In the circumstances, I request that sanction of Government may kindly be accorded to instal 35 additional street lights in Kankanhalli town as proposed by the Municipal Council.

Sir,

Sub Installation of additional street lights
in Kankanhalli town

With reference to your letter No L 292 dated
8-7-49 on the above subject, I have the honour to state that the
Government have sanctioned in their order No L 10654-7/M 1-40-51
dated 29-1-47 the installation of 23 additional street lights in
Kankanhalli town. Of these only 10 lights were installed and the
balance of 13 were not installed for want of materials. Now, the
council have resolved to have 35 additional lights exclusive of
the above already sanctioned. In the installation of these 35
additional lights is sanctioned, the total number of street lights
to be installed by the Electrical Department comes to 48 which
includes 13 lights already sanctioned but not installed. The
council resolution is also clear on this point.

The Electrical Department have addressed the
Municipal Council to guarantee an income of Rs 1810 equal to 10%
of the capital investment of Rs 18,100/- to be spent for the
installation of these 48 street lights. This works up to Rs 37-12-0
per light per year as against Rs 22/8/- the sanctioned scale.
The council is already paying a sum of Rs 2070 per year on the
existing 75 street lights. In the above rule of 10% return of the
capital investment is enforced it will mean that the municipality has to
pay Rs 15/4/0 per light per year over and above the existing rates.

In the circumstances, I request that sanction
of Government may kindly be accorded for the installation of 35

additional street lights and also to exempt the municipality
from the rule of guaranteeing 10% return on the capital
investment as demanded by the Electrical Department

Sub: Installation of Additional street Lights in Kankanhally
Municipality *****

In reference to your letter No 4032 dated 8 10 49 on the
above subject, I have the honour to state that the Municipal Council
Kankanhally has at its meeting held on 12 12 49 resolved that the
Government be requested to reduce the guarantee return of 10% on the
capital investment to 5% in view of the slender financial position of
the Municipalities

Due to the revision of pay of Establishment the high Cost of
Materials and the maintenance of Municipal High Schools all the
Municipalities are incurring heavy expenditure. On account of the
present business conditions the Revenues of the Municipalities from
sources like octroi and tolls are reduced. It has become very difficult
for most of the Municipalities to make both ends meet and to maintain
a steady Financial position

Providing adequate lights to the town is one of the ligiterate
duties of the Municipalities and whatever may be financial position
they will have to discharge this obligation to the Public

So I agree with the opinion of the Municipal Council and request
that the Govt may kindly be moved to reduce guarantee of 10% to 5%
and to sanction the installation of Additional Street Lights in Kankan-
hally Municipality as requested in this office letter of even No dated

Sub: INSTALLATION OF ADDITIONAL STREET LIGHTS IN KANKANHALLY *Down*

1) With reference to your letter No L ⁴⁵²¹ 9266 dated 23 2 1950 on the above subject I enclose herewith a report received from the President Municipal Council Kankannahally which is self-explanatory

2) The Council proposes to have 68 additional Street Lights instead of 48 as originally proposed. The cost ^{of} installation for the 68 lights is estimated to be Rs 19,350/- as against the estimate of Rs 13,100/- for 48 lights. So the royalty to be paid on 68 lights will be Rs 1935/- as against Rs 1310/- on 48 lights. Thus the Municipality will get 20 more lights by paying only Rs 125/- more per year.

3) I agree with the above proposal of the Municipal Council. By this, the Electrical Department will get its Royalty at the prescribed rate of 10% on the capital outlay and at the same time the Municipality will get 20 more lights at an extra expenditure of Rs 125/- per year.

4) The Town is really in need of the additional lights and the Municipality has to provide street lights to the new extension which has been formed about 3 years ago. The financial position of the Municipality permits incurring the extra expenditure and due provision will be made in the ~~annual~~ Budget estimates for 1951-52 and onwards to meet the same.

5) In the above circumstances I request that sanction of Government may kindly be accorded for the installation of 68 additional street lights at an annual expenditure of Rs 1,935/- as proposed by the
